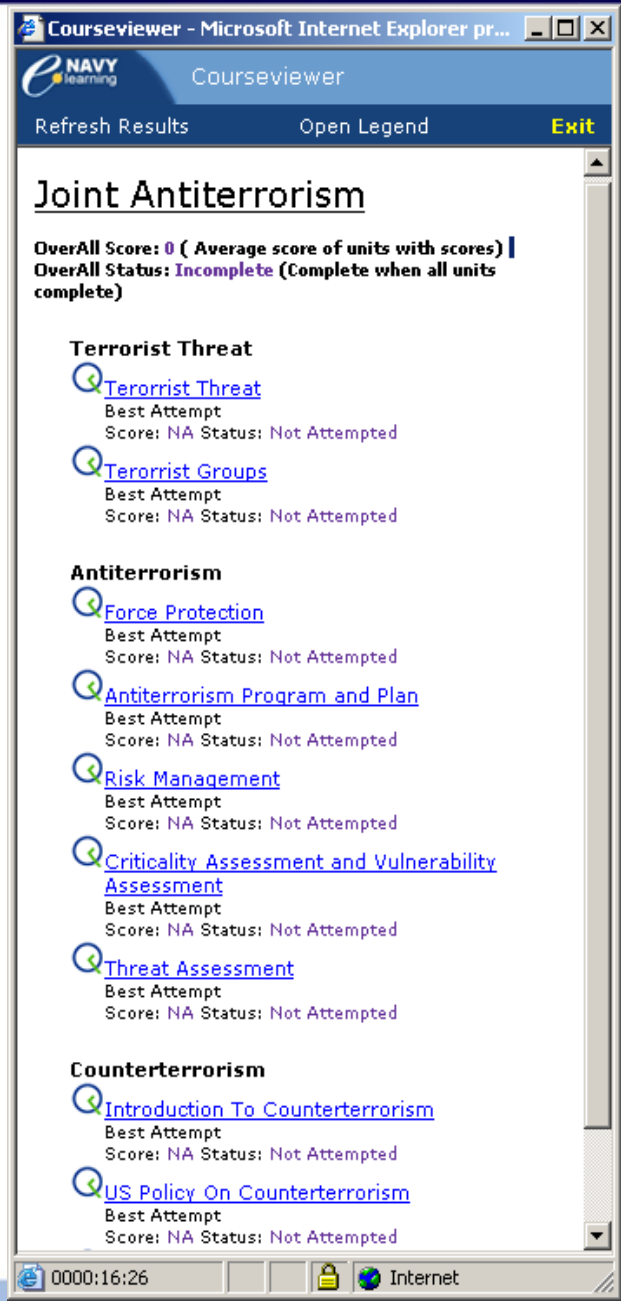
5. New Security/EPSQ/SF-86 Software

FIND THE TERRORIST!

There are 3 "terrorists" in our crowd today, they gave you the warning signs before and during this presentation. Learn from this Training, FIND THEM based upon our brief and FIND THE TERRORIST to win a prize!

Anti-Terrorism/Force Protection Brief

- **on NKO:** Log Into NKO here, www.nko.navy.mil then Click on Training, Navigate/Search "Anti-Terrorism or Force Protection" Click here for the Link to Launch Training, PASS the TEST and save your score.
- **At the NRS:** There is little value in committing a Terrorism Action against a NRS or against a Recruiter:
  - This is because there are ~5,000 Navy Recruiters Worldwide
  - Recruiters are "Soft targets" There is little publicity or sensationalism in attacking a Recruiter
  - By the Law of Armed Conflict, ALL uniformed personnel are legitimate targets, including Recruiters
  - The Enemy will largely ignore our Laws, Rules and Code of Conduct
- **But there IS value in Vandalizing/Irritating CNRC**
  - Recruiters are easy to find, often the only Military Presence in an area
  - Protestors feel that irritating CNRC is a way to "get back" at the system



TERRORIST #1!

Our first "terrorist" is an insurgent who has left a bomb in the auditorium. The "terrorist" asked you to save their seat while they make a head call, left an innocent looking package in their seat, and is now back at their apartment watching TV, waiting for the breaking headlines: "Bomb kills 12 Sailors and injures 37 during a terrorist act." CAN YOU IDENTIFY our "terrorist"?

BOMB THREAT ROLE PLAY
What do you do?

Keep them talking

Contact the CDO and call 911

Ask “When is the bomb going to detonate?”

Ask “Where is the Bomb Located?”

Ask “What is the composition of the bomb?”

Ask identity of the caller and location

Ask motivation of the bomber

Search, secure NRS, evacuate if appropriate

NRD SF Anti-Terrorism Brief

NRS Force Protection

- Secure the Hatch when NRS is unmanned (including the back hatch).
- Energize the running lights.
- Make a deal with local merchants who have surveillance/cameras.
- Secure the GOV's, park them in well-lit areas
- Secure the Mail Slot, and computers

TERRORIST #2!

Our Next "terrorist" is a spy who has stolen a military uniform and is walking among us, about to detonate an improvised explosive device. Like many infiltrators, the "terrorist" does not wear the military uniform correctly. There is something "just not right" with their uniform, which gives them away. The "terrorist" is hiding an improvised explosive device under their uniform. CAN YOU IDENTIFY our "terrorist"?

NRD SF Disaster Plan
What do you do?

- **NRD SF DISASTER PLAN:**

1. Muster online at: HTTPS://SECURE.BOL.NAVY.MIL

2. CALL 1-877-414-5358, UIC 62448 (OR 43962 IF MEPS SAC)

3. Contact Chain of Command, and CDO: 510-773-8714 (2-way: 16)

Give POC info, Location, Phone, and e-mail address.

Use Text message if unable to call

Write Chain of Command numbers on back of card

4. If unable to Muster Online, report to senior NRD SF Sailor at the closest location:

Moffett Field Army Reserve Gym: 650-603-8675

NPS Monterey Gym: 831-656-3118

NAS Lemoore Gym: 559-998-4883

Travis AFB Gym: 707-424-2798

New ONLINE EPSQ/sf-86

1. Recruiter enters Applicant name and SSN into secure website
2. Website gives a one-time password
3. Applicant and/or Recruiter login in with one-time password and changes password
4. Applicant and/or Recruiter login in with permanent password and completes EPSQ/SF-86 ONLINE
5. Recruiter Logs in to secure website, checks EPSQ/sf-86 and electronically SUBMITS to MEPS-level review
6. MEPS reviews submission, PRINTS 3 privacy act/release pages (along with bar-coded fax cover sheet) and has applicant sign when they are processing
7. MEPS electronically SUBMITS the EPSQ/sf-86 to DSS/OPM (Navy is charged $)
8. MEPS FAXES signed pages and custom bar-coded cover sheet into Defense Security Services, a few minutes later the secure website indicates receipt (just like the new DTS when you fax in receipts)

TERRORIST #3!

Our Last "terrorist" has counterfeited their military ID and security documents. The" terrorist" wants to join the Navy and shoot as many Sailors as possible during live fire weapons training on the rifle range. Like many amateurs, the" terrorist" made mistakes on their documentation and their name is inconsistent and misspelled in their application and kit. CAN YOU IDENTIFY our "terrorist"?
